

Amendments to the Specification:

Please make the following amendments to the specification. Material to be inserted in replacement paragraphs or sections is in **bold and underline**, and material to be deleted is in ~~strikeout~~ or (if the deletion is of five or fewer consecutive characters or would be difficult to see) in double brackets [[]].

Please replace the paragraph beginning at page 30, line 2, (*i.e.* the abstract) with the following rewritten paragraph:

--An interactive game is provided for use with a conventional DVD player configured to play DVD-Video discs. Some embodiments of the game include DVD media having scripts recorded thereon, to use the available memory storage ~~means~~ of a conventional DVD player to hold game variables. The variables in turn may be used by scripts to control game flow by implementing logical decisions based on the values of one or more variables, user-provided game input, or a combination thereof. Such decisions may include implementing other scripts, setting or changing values of game variables, playing audiovisual content, etc., to enable game play. Some embodiments of the game include a user-operated control adapted to distinguish among external input sources, for example to determine which of a plurality of players provides game input.--
